```java
1  package teste;
2
3  import classes.Kohonen;
4
5  /**
6   * created by lgcaobianco on 2018-06-16
7   */
8
9  public class TestarKohonen {
10     public static void main(String[] args) {
11         Kohonen kohonen = new Kohonen();
12         kohonen.treinarKohonen();
13         kohonen.faseOperacao();
14         kohonen.setValoresEntrada(kohonen.
   getConjuntoOperacao());
15         kohonen.faseOperacao();
16     }
17 }
18
```
